The goal of the Priest Issues Work Group was to hear directly from our membership. This is important for planning and action in the future. What follows are the “write-in” insights, issues and concerns of the respondents to this Survey that go beyond the questions that are on the charts on the first pages.

#	RESPONSES	DATE
1	#1 Very serious: Ideology of USCCB that elevates abortion to the only sin that is "pre-eminent". This leads majority of US bishops to support immoral policies of politicians who promise to make abortion illegal. Instead they should embark on widespread moral teaching about abortion and the other evils the USA currently engaged in - racism, unfair wages, rejection of refugees, etc. Simply making abortion "illegal" does not satisfy bishops' moral obligations to women or the unborn.	2/28/2020 7:13 PM

25	The Catholic Church and the rules it has made up that it considers a sin. Should stick to preaching the good news instead if being like the scribes and Pharisees and making burdens too hard to lift.	2/17/2020 5:26 AM
26	All issues that are not "ad intra"/churchy concerns have to take into account 2020 as election year. That why I chose as #1 "Common Ground regarding Life Issues." If I could I would have given this a #1, #2, #3, etc to emphasize its importance.	2/17/2020 4:02 AM

29	Militarism, endless wars, the war machine, the military industrial complex	2/15/2020 5:33 PM
30	1. American church's obsession with abortion, birth contro ll and homosexuality would rank the highest on my list. 2. Uselessness statements and conclusions from USCCB meetings. Have no relationship to reality of average individual or family. 3. Continuing absence of women's voices/votes in church issues from electing popes to local parish decisions. Without women's equal rights who make up more than half of the Catholic Church, Catholicism is irrelevant as an Institution. Women have fought for centuries for their equality in their personal lives, their jobs and place in society. Why believe in a church that denies them the same rights. 4. Make all male religious orders follow the Dallas Charter in dealing with sexual abuse. These male orders are not held to the same standards and receiving an impartial hearing is much more difficult, orders do not have to publish names of credibly accused priests and their financial responsibility is far, far less.	2/14/2020 2:13 PM

44	Better training in seminaries of Vat II Liturgical Theology as basis for understanding mentality for priesthood and vocations	2/14/2020 7:22 AM
45	The diluted voice of the church because of internal divisions. Public positions of Bishops conference are watered down because of failure to lead by consensus. Thus one issue life positions play into hands of civil leadership who "play" the Catholic vote to their advantage. Internally we are at odds on life, immigration, economic justice, gun control. As a result we have people in pulpits telling people they may not vote for politicians who do not call for Roe v Wade overthrow. We have failed to make a moral case for gun reform in our own parishes. We need leaders with moral guts to get us out of the culture war syndrome. Jesus has already spoken on issues that some preachers feel are off bounds because politicians have silenced us. Let's retrieve our moral guts.	2/14/2020 7:05 AM

54	I am concerned about priests preaching right wing politics as if it were the Gospel message.	2/3/2020 8:52 AM
55	Climate change should be separate issue. The mass is the prayer of the people so liturgy should reflect this. The congregation should be saying the offertory prayers with the priest as we are family preparing the table together. The Holy Spirit comes based on the faith of the whole community present therefore whole community should raise their hands when we invoke the Holy Spirit before consecration. Final blessing should have everyone raising their hands and giving one another a final blessing - not just the presider.	2/1/2020 10:01 PM

31	After 45 years I hope to see something get better. As an observer to all the expensive fad programs to revitalize the church I find it bewildering that Bishops don't learn from successes accomplished in ministries in their own dioceses. My observation is that the strong local parishes get there by flying under the radar of bishops. Nobody in authority is curious about successes. In my diocese under a strict conservative bishop the seminary was transformed from a place of ministerial formation and theological education into a school of training for deputy Marshall's empowered to enforce orthodoxy and liturgical rubric. We are paying a huge price for that style of leadership. The young men that I ministered with during my last 15 years were told that they should assume that they were better educated theologically than the pastors he was sending them to. We all have the same vocation to represent Christ as much as we possibly can. Get rid of language in ordination rite that says the ordained have a greater responsibility to represent Christ more fully. Not true. We are all called to do that. Unteach attitudes of St. Thomas and Augustin on women. Reteach and educate seminarians on the contributions and sacredness of women.
